

M. MUNEEB-UL-RAZA

IT TRAINER & SYSTEM SPECIALIST / FULL-STACK DEVELOPER

Phone: +92 316 8196924

Email: muhammadmuneebulraza@gmail.com muneeb-raza

LinkedIn: linkedin.com/in/

Location: Tando Allahyar, Sindh, Pakistan

PROFESSIONAL SUMMARY

Accomplished IT Professional, Technical Trainer, and Systems Specialist with a solid track record of orchestrating enterprise-level computer lab setups, localized digital platforms, and scalable network architectures. Expert in hardware/software diagnostics, system optimization, and end-user training. Adept at leveraging advanced generative AI frameworks, structured data environments, and dynamic engineering tools to optimize system up-time, streamline administrative reporting, and build responsive applications.

PROFESSIONAL EXPERIENCE

IT Trainer & Infrastructure Specialist

2024 — Present | Tando Allahyar, PK

SkillZone Computer Academy & Brain Scoop IT Academy

- Coordinate architecture deployments across multiple workstations, successfully handling system provisioning, automated security patch rollouts, network configuration, and diagnostic protocols.
- Isolate and resolve critical hardware and software standard issues, managing system lifecycles and peripheral connectivity to reduce laboratory system downtime.
- Deliver technical training to professionals and students in object-oriented programming (OOP), relational database architecture (MySQL), structural PHP systems, and dynamic user interfaces.

Enterprise-Level Technical Internships

May 2025 — 2026 | Remote

CodeAlpha & FutureXcel

- Engineered clean modular automation components, receiving an official Letter of Recommendation (LOR) celebrating pristine codebase management, thorough optimization pipelines, and professional deployment lifecycles.

EDUCATION

BS in Computer Science

Government College University, Hyderabad (Batch 2023)

Intermediate (Pre-Engineering)

Kaim Khan Memorial Higher Secondary School

CORE TECHNICAL EXPERTISE

- Network Routing & Design
 - System & Security Config
 - Hardware/Software Diagnostics
 - Generative AI & Prompting
 - Cybersecurity Foundations
- JavaScript / PHP / C++
 - Object-Oriented Prog (OOP)
 - Relational Databases (MySQL)
 - Git & GitHub Version Control
 - Full-Stack Architecture

Languages: English, Urdu

VERIFIED CREDENTIALS

- Google Prompting Essentials (Coursera)
- Google Prompt Design & Like a Pro (Coursera)
- Use AI Creative Specialization (Google)
- Cybersecurity Foundations (LinkedIn Learning)
- Complete Cyber Security Track (LinkedIn)
- Computer Networking Systems (Great Learning)
- Data Analysis Certification (Google Cloud)
- React JS & UI Architecture (Great Learning)
- Learning ECMAScript 6+ (JS) (Great Learning)
- Frontend Development HTML/CSS (Great Learning)
- Advanced MySQL Databases (Mindluster)
- Git & GitHub Version Control (Mindluster)
- AI Project Showcase & 3rd Talent Fest (GCUH)
- Advanced Coding Competition (GCU Hyderabad)
- Technical Project Exhibition (SST Rashidabad)
- Full-Stack Developer Certificate (FutureXcel)

PRODUCTION & INFRASTRUCTURE PROJECTS

- InfoGenius Vision (AI Integration Hub):** Developed an intelligent interface utilizing advanced generative AI mechanics, prompt pipelines, and custom API integrations for smart automated infrastructure diagnostics.
- TandoAllahyar Centralized Digital Portal:** Architected and deployed a specialized dynamic system dashboard optimized for regional operation updates, multi-device data accessibility, and secure record monitoring.
- Unipoint Operational Schedule Matrix:** Designed and rolled out a responsive schedule management framework leveraging React and Tailwind CSS to track institutional transit and operations points seamlessly.
- WCWA Institutional Management Platform:** Engineered a comprehensive secure data-handling platform for the Women & Children Welfare Association to manage resource distribution, client tracking, and archival auditing.
